

AS VERSATILE AS THE HUMAN BODY.

Every aspect of our fitness equipment is made to mirror human movement — fluid, natural, and familiar. Intuitive engineering and thoughtful design offer an invigorating workout that helps users keep moving. Arising from our heritage of providing quality fitness solutions that work, Precor fitness equipment keeps your users satisfied no matter what their goal. Precor inspires a life in motion.

Easy to use. Precor products are designed for ease-of-use, with intuitive displays that help users get on and get going.

Premium climber delivers superior Member Experience™. With an advanced display that offers seamless integration with Cardio Theater® and a pulley-drive system, the 776i provides users with a great workout experience.

Committed to excellence. For 25 years Precor has been a leader in the fitness industry, delivering breakthrough innovations and premium quality products for the home and club.

PRECOR®

1/ Built to last

Pulley-drive systems are inherently dependable because they tend to have fewer parts. Pulleys do not require lubrication like chains and won't stretch like cables. Pulley systems are also quieter than chains.

2/ Self-powered with superior feel

Because it uses a self-powered, generator-resistance system, speed control is optimized to provide a smooth climbing experience.

3/ Fully integrated entertainment options

Fully integrated Cardio Theater design, with personal viewing screens or ambient viewing, enhances the member experience by offering a more seamless, premium look to your cardio area.

4/ Direct access to 14 programs

Six buttons are the gateway to 14 preset programs, including one fitness test. Users can select or change to a new program at any time during their workout.

5/ Tap Control™

Large buttons provide satisfying tactile response and audible click. Beginners and experts alike easily get on and go with this intuitive control. Users know the machine has received input, even when using headphones for entertainment.
